The INSIGHT Philosophy

We present informative reading on a monthly basis, written by people within the industry for people who like to make informed decisions. The Insight Team do not let personal beliefs and the notion of ownership dictate the content of this magazine. More importantly, we believe every opinion – whether it comes from within us, from outside influences or from another dimension all together – has a right to be expressed, and this is the forum for that expression.

We offer a vehicle for the education of all beings no matter where they may be on their journey towards greater insight. Our readers are interested in learning about all of life's choices and it is best not to assume that they already know about a particular healing modality, health issue or nutritional supplement.

Articles are best written in a way that all our readers can understand, regardless of what stage they are in their development.
